**Portfolio:** <https://dovi38.github.io/>

**GitHub:** <https://github.com/Dovi38>

*Highly motivated and ambitious person actively seeking a career change to utilise recent learnings and passion to be a “Junior Web Developer”.*

## Profile:

Professional and courteous manner that has a flexible approach to all work tasks, with the ability to adapt to internal system and process changes in a positive manner. Can prioritise demanding workloads within a high-pressure environment to ensure business expectations are achieved. Displays excellent interpersonal, communication and influencing skills and the ability to develop and grow mutually beneficial internal and external relationships.

Recent related learnings include “Codecademy.com” and finished Web Development course at “Nology.io” which is an intense learning environment for “Web Development”. Continuously seek opportunities to learn and happy to absorb any training offered.

## Key Skills & Attributes:

- **Web Development:** HTML, CSS, CSS framework Bootstrap, SCSS, BEM, JavaScript, NodeJS, NPM, REACT.
- **Information Technology:** competent user of MS Office, and now actively engaged in “coding” possessing a high level of attention to detail.
- **Communication:** across all levels both internally and externally
- **Teamwork:** worked across a variety of teams that contained differing skills levels ensuring we all delivered as per the company standards.
- **Integrity:** demonstrates the ability to achieve excellent results, whilst maintaining a focus on ethics and personal integrity.
- **Quality Driven:** constantly deliver the quality expected due to the high profile and competitive nature of the business.
- **Self-motivated:** use my initiative to solve problems and make decisions ensuring productivity is kept to the levels expected and has no impact on the customer experience.
- **Willingness to Learn:** keen to continue learning and will undertake all opportunities presented.
